Dear Residents and Families;

We wanted to provide an update to everyone regarding the dining services at Grand Oaks. We continue to manage through a critical staffing emergency in the kitchen. Andrew and his team are focused on providing the best quality meals possible during this time. Andrew has also partnered with a local temp agency to assist with potential candidates.

Over the next few weeks, we will continue to serve the published menu most days, however some days we may provide the dining options via buffet service. Our team of servers will continue to be available to assist residents with dining options during any buffet service. In addition, our dining manager and/or dining room supervisors are always available during meals to answer any questions and assist with communicating dining options for the day. Please reach out to them if you have any questions during meals. Our team will continue to ensure that any medical diets/restrictions continue to be met for our residents.
