

Friday, March 22, 2024

Hello All,

This notice is to inform you that we will finally begin our WIFI installation project on Monday, March 25, 2024. The contractors will begin on the 4th floor and work their way down to the first floor until the project is complete. During this time the contractors would need access to each apartment to install the necessary equipment. Please be sure to secure all valuable items as we are working with outside contractors, not Grand Oaks employees. I will try my best to have someone from the maintenance team to assist with entering the apartments and stay with the contractors if you're not home.

If you have any questions, please do not hesitate to contact me at 202.660.7228

Kind regards,

Jermaine Pendleton
